This option is perfect for those who need to fit training around a busy schedule or companies needing to train a large amount of people in a timely and cost effective manner.

This training is available for companies who wish to conduct their training remotely on-site and wish to bring together employees working at various locations.

This is also available for individuals who want individual online tuition from their desk.

International Foundation Programme

Our International Foundation Year programme is a one academic year programme designed to give students an entry route to universities here in the UK.

Most universities in the UK do not consider a high school diploma gained outside of the EU as sufficient to meet their entry requirements. These students need to achieve a foundation qualification as well as having a level of English that shows they can cope with the demands of the course. Taking a course with us, accredited by NCC Education will take you on those first steps.

New for 2015 - Successful completion of the course will allow students entry to hundreds of degree programmes and many UK universities - Conditional offers available at the time of enrolment.
